

Performance Management

Effectively measure employee performance to accelerate growth

Maximizing employee efficiency and effectiveness is critical to achieving organizational business objectives regardless of specialty, staff size or location. Arcoro[®] Performance Management is a cloud-based solution that empowers team members to direct their own career development toward mutually agreed-upon goals and competencies, while enabling managers to better understand the strengths and weaknesses of the overall team and keep them focused on achieving their goals.

By benchmarking, tracking and evaluating employee performance regularly over time, HR teams gain all the insight needed to make informed personnel decisions.

Improve Workforce Productivity

Encourage year-round behaviors, resulting in higher employee engagement and lower employee turnover. Motivate your employees to be their very best by providing them with regular, actionable feedback.

Align Goals with Strategy

When employees are working toward shared company goals the result is shared success. Take the guesswork out of what is expected. Define, discuss, deliver, manage and measure accomplishments.

Support Your Field and Office Teams

Ensure equitable treatment of employees through consistent, standardized procedures. Managers are able to set, track and approve a variety of employee goals—from quantitative goals like quotas to qualitative ones like communication—and see who's exceeding expectations.

70% of companies say there is a need to improve the link between performance management and other talent decisions.
